

ZEPOSIA
(ozanimod) | 0.92 mg capsules

360 SUPPORT™

Three steps for getting started with **ZEPOSIA**

Welcome

It's normal to have questions when beginning any new treatment. This guide was created to help as you begin the process of starting ZEPOSIA[®] (ozanimod).

INSIDE:

A checklist you can use to keep track of the steps for getting started

Walk through these
steps online at
ZEPOSIA.com/startnow

Step 1:

Meeting a Support Coordinator

Once you're prescribed ZEPOSIA® (ozanimod), a Support Coordinator will contact you to welcome you to the program and guide you through the support offerings.

Our Support Coordinators can:

- Help navigate your insurance benefits*
- Assist you in exploring available support and savings options
- Arrange for eligible, commercially insured patients to get ZEPOSIA in the event of delays or issues with insurance coverage
- Assist eligible, commercially insured patients with scheduling the routine tests needed to start ZEPOSIA

Additional eligibility requirements and terms and conditions apply.**†‡

Our Support Coordinators are available to help.
Contact ZEPOSIA 360 Support™ at **1-833-ZEPOSIA**
(1-833-937-6742), Monday to Friday, 8 AM–8 PM ET

If you haven't heard from a Support Coordinator, reach out to your healthcare team to ensure your Start Form was submitted to ZEPOSIA 360 Support.

*The accurate completion of reimbursement- or coverage-related documentation is the responsibility of the healthcare provider and patient. Bristol Myers Squibb and its agents make no guarantee regarding reimbursement for any service or item.

Step 2: Initial routine tests to get started

Before you start taking ZEPOSIA, two routine tests are required. If you have a history of certain eye conditions (macular edema or uveitis) or diabetes, you may also need an eye exam.

Let your healthcare provider know if you've had some of these tests within the last six months, as they may not need to be repeated:

Blood work—including complete blood count and liver function test

An electrocardiogram (ECG)—a common test that uses small sensors to monitor your heart and makes sure it's working normally before you start treatment

These tests can be completed at your home, if you're eligible and commercially insured. ZEPOSIA 360 Support™ can help schedule them.†

Find more information about savings on initial routine tests on page 7 of this brochure.

†Patient must have a valid prescription for ZEPOSIA for an FDA-approved indication. Patients are not eligible if they have prescription insurance coverage through a state or federal healthcare program, including but not limited to Medicare, Medicaid, Medigap, CHAMPUS, TRICARE, Veterans Affairs (VA), or Department of Defense (DoD) programs, or reside in Rhode Island. To receive the In-Home Medical Services Program, the prescriber must request in-home assessment assistance through the ZEPOSIA 360 Support program. The patient's insurance will not be billed, and the patient will not be responsible for any out-of-pocket costs. Patients who move from commercial plans to state or federal healthcare programs will no longer be eligible. The program cannot be combined with any other offer, rebate, coupon, or free trial. The program is not conditioned on any past, present, or future purchase, including refills. Only valid in the United States and US Territories. Void where prohibited by law, taxed, or restricted. The program is not insurance. Bristol-Myers Squibb Company reserves the right to rescind, revoke, or amend this program at any time without notice. Other limitations may apply.

Step 3: Ready for your Starter Kit

Once you've been approved to begin treatment, you'll receive the ZEPOSIA Starter Kit. It will either be provided to you by your healthcare team or delivered directly to your home. Please see additional eligibility requirements.†

The ZEPOSIA Starter Kit has two parts:

- 1. A 7-day Starter Pack**, for your first week of treatment. The pills in this pack help increase your dosage of ZEPOSIA gradually. Each pill is labeled with the day and dosage. Be sure to follow the instructions written on the pack and take the pills in the correct order
- 2. The regular dosage of ZEPOSIA** (orange capsules) you'll begin taking on day 8 (after completing the 7-day Starter Pack)

You'll then receive monthly refills of ZEPOSIA® (ozanimod) from a specialty pharmacy (a type of pharmacy that handles medicines for chronic conditions).

You will receive a call from your specialty pharmacy to confirm the delivery of your ZEPOSIA prescription each month. If you prefer to pick up your prescription in store, simply ask your specialty pharmacy. They may offer that option.

†Patient must have a valid prescription for ZEPOSIA for an FDA-approved indication. Patient must be new to therapy and have not previously received a sample or filled a prescription for ZEPOSIA. Patient is responsible for applicable taxes, if any. This offer is limited to one use per patient per lifetime and is non-transferable. Cannot be combined with any other rebate/coupon, free trial, or similar offer. No substitutions permitted. Patients, pharmacists, and prescribers cannot seek reimbursement for the ZEPOSIA Free Trial from health insurance or any third party, including state or federally funded programs. Patients may not count the ZEPOSIA Free Trial as an expense incurred for purposes of determining out-of-pocket costs for any plan, including Medicare Part D true out-of-pocket costs (TrOOP). Offer is not conditioned on any past, present, or future purchase, including refills. Only valid in the United States and US Territories. Void where prohibited by law or restricted. The program is not insurance. Bristol Myers Squibb reserves the right to rescind, revoke, or amend this offer at any time without notice.

Ways to save with ZEPOSIA 360 Support™

See if you could save with a co-pay offer

Those who are eligible and commercially insured may pay as little as **\$0 a month** for ZEPOSIA with a co-pay savings offer.⁵

Some out-of-pocket costs associated with medical testing may be reimbursed

There may be costs associated with some of the routine medical tests, but depending on where these tests take place, eligible, commercially insured patients may qualify for reimbursement.⁵

The ZEPOSIA Bridge program may be able to help if you're waiting for insurance approval

If you have private or commercial insurance and are experiencing delays or issues with coverage, the **ZEPOSIA Bridge Program** may be able to provide ZEPOSIA to you, as needed (for up to 24 months).¹

Additional eligibility requirements and terms and conditions apply to the co-pay savings offer⁵ and the Bridge Program.¹¹

⁵ZEPOSIA Co-pay Program is valid only for patients with commercial insurance. The Program includes a prescription benefit offer for out-of-pocket drug costs and a medical assessment benefit offer for out-of-pocket costs for the initial blood tests, ECG screening, and eye exam where the full cost is not covered by patient's insurance. Patients are not eligible for the prescription benefit offer if they have prescription insurance coverage through a state or federal healthcare program, including but not limited to Medicare, Medicaid, Medigap, CHAMPUS, TRICARE, Veterans Affairs (VA), or Department of Defense (DoD) programs. Patients are not eligible for the medical assessment benefit offer if they have insurance coverage for their prescription or medical assessment through a state or federal healthcare program, or reside in Massachusetts, Minnesota or Rhode Island. Patients who move from commercial plans to state or

(Terms continued on next page)

(Terms continued)

federal healthcare programs will no longer be eligible. Patient must be 18 years of age or older. Eligible patients with an activated co-pay card and a valid prescription may pay as little as \$0 per 30-day supply; monthly, annual, and/or per-claim maximum program benefits may apply and vary from patient to patient, depending on the terms of a patient's prescription drug plan and to ensure that the funds are used for the benefit of the patient, based on factors determined solely by Bristol-Myers Squibb. Some prescription drug plans have established programs referred to as "co-pay maximizer" programs. A co-pay maximizer program is one in which the amount of the patient's out-of-pocket costs is adjusted to reflect the availability of support offered by a co-pay support program. Patients enrolled in co-pay maximizer programs may receive program benefits that vary over time to ensure the program funds are used for the benefit of the patient. Patients may pay as little as \$0 in out-of-pocket costs for the medical assessment, subject to a maximum benefit of \$2,000. The medical benefit offer only applies to clinical baseline assessment services covered by the Program. Patients are responsible for any costs that exceed the maximum amounts. To receive the medical assessment benefit, an Explanation of Benefits (EOB) form must be submitted, along with copies of receipts for any payments made. The Program expires on December 31, 2023. All Program payments are for the benefit of the patient only. Patients, pharmacists, and prescribers may not seek reimbursement from health insurance, health savings or flexible spending accounts, or any third party, for any part of the prescription or medical assessment benefit received by the patient through this Program. Patient's acceptance of any Program benefit confirms that it is consistent with patient's insurance and that patient will report the value received as may be required by his/her insurance provider. Program valid only in the United States and Puerto Rico. Void where prohibited by law, taxed, or restricted. The Program cannot be combined with any other offer, rebate, coupon, or free trial. The Program is not conditioned on any past, present or future purchase, including refills. The Program is not insurance. Other limitations may apply. Bristol Myers Squibb reserves the right to rescind, revoke, or amend this Program at any time without notice.

¶The Bridge Program is available at no cost for eligible, commercially insured, on-label diagnosed patients if there is a delay in determining whether commercial prescription coverage is available, and is not contingent on any purchase requirement, for up to 24 months (dispensed in 30-day increments). The Bridge Program is not available to patients who have prescription insurance coverage through a state or federal healthcare program, including but not limited to Medicare, Medicaid, Medigap, CHAMPUS, TRICARE, Veterans Affairs (VA), or Department of Defense (DoD) programs and is available for no more than 12 months to patients in MA, MN, and RI. Appeal of any prior authorization denial must be made within 90 days or as per payer guidelines, to remain in the program. Eligibility will be re-verified in January for patients continuing into the following year, and may be at other times during program participation. Offer is not health insurance. Once coverage is approved by the patient's commercial insurance plan, the patient will no longer be eligible. Void where prohibited by law, taxed, or restricted. Bristol-Myers Squibb Company reserves the right to rescind, revoke, or amend this program at any time without notice. Other limitations may apply.

Step 1: Meeting a Support Coordinator

- A Support Coordinator will call you.*** If you haven't heard from a Support Coordinator, contact your healthcare provider to confirm your Start Form was submitted to ZEPOSIA 360 Support™
*While Support Coordinators can answer questions about ZEPOSIA 360 Support, they cannot provide medical advice.
- Explore the co-pay program.†** If eligible, enroll with a Support Coordinator or online at ZEPOSIA.com/savingsoffer
- Explore reimbursement options.†** Ask a Support Coordinator if you qualify for reimbursement for the initial routine tests

Step 2: Arrange for initial routine tests (to ensure you're an appropriate candidate for ZEPOSIA[®] [ozanimod])

- Your tests will take place at one of the below:**
 - At home‡
 - In your healthcare provider's office
 - In a lab testing center
- Set up appointments for your routine tests:**
 - Blood work**
Date: Time: Location:
 - Electrocardiogram (ECG)**
Date: Time: Location:
 - Eye exam** (for people with a history of macular edema or uveitis)
Date: Time: Location:
- Follow up with your healthcare provider for results**

You're almost there! Just one more step on the next page >

†ZEPOSIA Co-pay Program is valid only for patients with commercial insurance. The Program includes a prescription benefit offer for out-of-pocket drug costs and a medical assessment benefit offer for out-of-pocket costs for the initial blood tests, ECG screening, and eye exam where the full cost is not covered by patient's insurance.
